5. The following is an examiner's statement of reasons for allowance:

With regards to Independent Claim 1, the Applicant has sufficiently claimed and narrowly defined a backlight assembly, wherein a support is disposed on a reflector such that, when expanded, a diffuser plate is abutted by the support. The prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, specifically said expansion of the support, and all subsequent dependent claims are allowed.

With regards to Independent Claim 11, the Applicant has sufficiently claimed and narrowly defined a backlight assembly, wherein a plurality of supports are disposed on a reflector in a manner such that the supports are abutted by a diffuser plate and a plurality of lamps are each retained by one of the supports respectively. The prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, specifically each lamp being retained by one support, and all subsequent dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
